

Berghaus

Pipe Organ Builders

Our Philosophy

OUR GOAL IS SIMPLE: to provide an outstanding instrument that becomes an organic part of its environment. Artistry is an integral part of the Berghaus philosophy. Therefore, Berghaus organs are designed as aural and visual masterpieces. For each instrument, we carefully create the tonal and visual design to work in harmony with the size and acoustics of the space. Berghaus designs pipe organs to be in perfect harmony with the surrounding architecture, creating a cohesive atmosphere in each location.

Our Craftsmen

INSTRUMENTS BUILT by Berghaus Pipe Organ Builders are, in great measure, a reflection of the artists and craftsmen who “Bring Each Design to Life.” Whether building a new instrument or refurbishing an existing one, the team at Berghaus works together to achieve extraordinary results. Berghaus is focused on attracting, inspiring and retaining remarkably talented employees, who are the key to our success.

“The Definition of Legacy”

Berghaus: "The Definition of Legacy"

Berghaus Pipe Organ Builders' commitment to the Art of Organbuilding is exemplified in our dedication to exploring the art, form and role of the pipe organ in today's environment.

History & Heritage

IN 1967, LEONARD G. BERGHAUS, then a gifted educator and organist, was inspired to build pipe organs as a profession. His early passion for the pipe organ prompted extensive training in the art of organ building with a special emphasis on tonal design, voicing and the various forms of key and stop actions.

Over the years, Berghaus has grown to become a leader in the design and construction of fine liturgical and performance-oriented pipe organs. The company is also highly regarded for its restoration of historical instruments. The commitment and passion that inspired the creation of the firm remain evident in all aspects of our work under the guidance of Brian Berghaus, the second generation of Berghaus family leadership.

New Organs

BERGHAUS PIPE ORGAN BUILDERS has designed and built more than 200 pipe organs of distinction for churches, educational institutions and private individuals. Establishing a collaborative relationship with each client is the hallmark of the Berghaus experience. Berghaus hand crafts every instrument to fulfill the unique musical and environmental needs of each customer. The result is exhilarating to play for the musician and inspiring to the listener.

Refurbishment & Restoration

FROM MINOR REPAIRS TO COMPLETE historical restorations, Berghaus completes each project with particular attention to detail and a level of craftsmanship not often seen today. Services include: Restorations, Rebuilds, Relocations, Releathering, New Consoles, Console Upgrades, Solid State Conversions, Tonal Additions, Revoicing, & Consultation.

Service & Maintenance

THE SERVICE TEAM AT BERGHAUS has the experience and resources to properly care for all types of pipe organs. Tuning represents the heart of the service department and our skilled technicians accurately troubleshoot and resolve any problem that might arise.
