Our Philosophy

AT PATRICK J. MURPHY & ASSOCIATES, our primary goal is to professionally envision and construct new pipe organs and restore existing instruments that transcend the esthetic and artistic vision of our clients in a personable, knowledgeable, and practical manner.

SINCE 1987 PEOPLE HAVE TURNED to Patrick J. Murphy & Associates, Organbuilders, for assistance with this task. We have been proud to be part of the team in many churches and institutions, partnering with them to bring their vision to life. With our reputation for skill, craftsmanship, quality, and overall excellence, it is not surprising that many prestigious organizations have made Patrick J. Murphy & Associates, Organbuilders their choice for pipe organs. Whether you seek a restored, rebuilt, or renovated organ, the service and maintenance of an existing organ, or the design and construction of a new and original instrument, we can guide, plan, and execute. The result is a reliable, durable and elegant instrument that is manageable to the organist, and is a singularly beautiful work of art to the beholder.

New Pipe Organs

TO ENSURE THE COMPLETE SATISFACTION of a client, each instrument is custom planned, engineered and executed for its own unique acoustical and liturgical setting and based on a balanced specification.

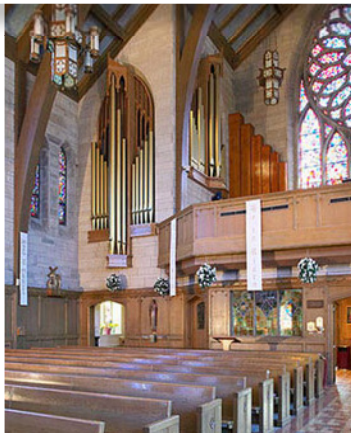

WE FOLLOW THREE IMPORTANT GUIDELINES FOR DESIGN AND USE:

- THE INSTRUMENT MUST PROVIDE FIRM AND MUSICAL SUPPORT FOR CONGREGATIONAL SINGING.
- THE INSTRUMENT MUST PROVIDE SENSITIVE AND MUSICAL ACCOMPANIMENT FOR THE CHORAL LITERATURE.
- THE INSTRUMENT MUST PROVIDE FOR THE MUSICAL RENDERING OF COMPOSED LITERATURE.

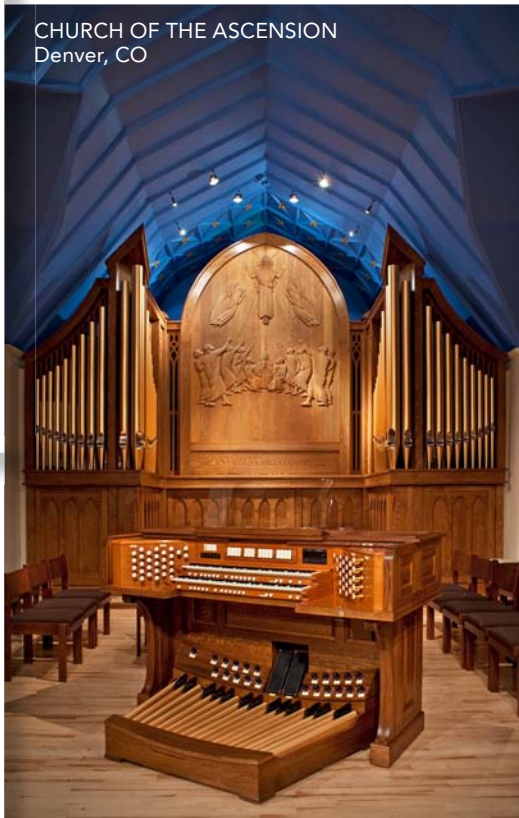

OUR TONAL PHILOSOPHY is to design and voice liturgical instruments that are intended to excite and to soothe the listener and harmonize with the room. Our liturgically based instruments are balanced to support choral and congregational singing by offering the maximum possibilities for sensitive and creative service playing. We believe that by offering organists comfortable registration possibilities for creative and sensitive service playing, and by having an essential grandeur and balance as needed, we can achieve the excitement necessary for effective worship.

Tuning, Repair, Rebuilding and Restoration

REPAIR, REBUILDING, OR TUNING of compromised or worn pipe organs is a challenge to which our firm is fully experienced and qualified. Tonal projects, additions, and console upgrades or replacement, are also central to our repertoire. We can advise you about the most efficient and cost-effective methods for optimizing any instrument, whether electro-pneumatic, mechanical or tracker action.

FOR OUR CLIENTS WHO SEEK to preserve the best of the past for enjoyment well into the future, our services include complete re-leathering, restoration, reconditioning, and selective tonal enhancement of period pipe organs. Our long relationship with the Organ Historical Society has given us insight to hone our appreciation with respect to the understanding of historical instruments and the pragmatic needs in today's worship environment. In order to preserve the integrity of a venerable instrument, it is our policy to adhere strictly to historical authenticity in materials, except where contemporary technology provides a compelling advantage.
